

Thank you for your support for the launch of LivWiSE

We'd like to thank everyone who came and supported the launch of LivWiSE, especially those who battled the torrential rain and gales! Guest speaker Kate Bellingham delivered an enthusiastic talk about her experiences and involvement with STEM and joined everyone afterwards for the canapés and networking session. We are delighted so many of you attended and have become members of LivWiSE, we look forward to seeing you at future events.

LivWiSE is a society for you and your input is important. We want to hear from you as to who you would like to appear as guest speakers as well as any specific events which you think you would benefit from. Please email any suggestions to Dr Kate Black k.black@liv.ac.uk or lbarker@liv.ac.uk

At LivWiSE it is our mission to promote and celebrate women in science and engineering.

The LivWiSE society is a network for students, academics and companies who are working and training in science and engineering. LivWiSE aims to inspire women to achieve their potential as engineers and scientists by offering its members support and professional development. We will aim to do this by hosting a variety of events including;

- **Networking events**—will enable our members to develop an active forum for exchanging experiences, ideas and create an opportunity to engage with scientists and engineers from a wide variety of backgrounds.
- **Guest Lectures** —will give members the opportunity to hear from female leaders in the field of science and engineering and inspire future generation's career pathways.
- **Mentoring scheme**—will create a network to support, stimulate and inspire, by utilising our members skills, knowledge and expertise.

Forthcoming LivWiSE events (for full details visit www.liv.ac.uk/engineering/livwise/)

Wed 15th Jan 2014

Female Early Career Researcher Network - guest speaker Professor Laura McAllister.
[For details click here](#) To attend please contact Claire.sanders@liv.ac.uk

Mon 27 - 29 Jan 2014
Plus review day on
Wed 12 March 2014
