

School of Veterinary Science

Foundation to Human and Animal Health Professions (Veterinary Science) (Year 0).

This is a six-year course. If students successfully complete Year 0, they will automatically progress to the 5-year BVSc (D100).

Applications should be made via UCAS for course code **74 JJ**; **Deadline 29th January 2025.**

- Applicants are required to have five GCSEs at grade B (grade 6) including Maths, English (language or literature) and Science at the time of application.
- Applicants should normally have been out of education for at least 5 years i.e. their last qualification should have been achieved in 2019 if they are applying in 2024.

In extenuating circumstances, we will consider applications from mature learners who have been out of education for 3 years. These will be considered on a case by case basis and applicants must have contacted us vetadmit@liverpool.ac.uk before they submit their application.

Applications that meet our initial criteria will be sent a work experience questionnaire which will ask applicants to detail any work experience with a veterinary surgeon and/or with live animals in a commercial setting. To progress to interview, we would normally require applicants to have completed:

- **Five days** hands-on of any animal-related experience **plus five days** working with a veterinary surgeon obtained within the five-year period directly preceding the application deadline. If applicants are unable to arrange a placement with a veterinary surgeon then they should complete ten days hands-on of any animal-related experience plus complete an online MOOC [Virtual Work Experience and Exploring the Veterinary Profession MOOC](#).

Applications will be ranked according to contextual data, personal statement, academic reference and work experience. Applications will be screened after the deadline.

Please note that we have limited places available on this course and the process is competitive.

Further details can be found on the below link:
