

INTERNATIONAL WOMEN IN MATHEMATICS DAY – 12 MAY 2023

ABOUT THE SPEAKERS

Kamila is a Senior Lecturer in the Department of Mathematical Sciences. Her work focuses on the application of statistics in biology, ecology and health sciences. She was the Equality, Diversity and Inclusion Lead for the Department and lead the recent successful application for the Gender Equality Charter (Athena Swan) Silver Award.

Julia is a first-year PhD Student in the Department of Mathematical Sciences. Her research is about the geometry of iterated rational maps on the Riemann sphere. She is the winner of the Maths EDI Poster Competition with a poster about Women in Mathematics.

Register here for free!

Please note that the registration is free but necessary to be able to plan the catering for the networking lunch.

SCHEDULE

12:00–12:10	Opening of the event Prof. Rachel Bearon
12:10–12:40	Statistics: the grammar of science Dr Kamila Żychaluk
12:40–12:45	Award of EDI Poster Competition prize Prof. Gita Sedghi
12:45–13:00	Poster about Women in Mathematics Ms Julia Münch
