

## Annual Subject Action Planning 2023/24

### Taught Provision

(for provision in 2022/23)

#### Data for reporting and action planning

The data sources for reporting are summarised below:

**i) Tableau dashboards**

The Tableau dashboards are provided as PDFs for each reporting unit, these comprise PDFs for UG data and for PGT data on intake, continuation and classifications. **NB** the PGT data is for 2021/22 as Tableau had not been updated for 2022/23 PGT data in time for this ASAP reporting process; this will impact on whether any actions are required.

The PDFs include link access the dashboard directly (for those who have access) in order to be able to view the data specific to different student cohorts.

**ii) Other data sources**

Business Objects ASR Explorer Spaces: The 2022/23 intake numbers and tariff data for that intake are available in Explorer (accessible through the ASR Admissions space).

NSS Data:

<https://www.liverpool.ac.uk/intranet/market-intelligence-and-customer-insight/national-student-survey/currentresults/>

**iii) Graduate outcomes data**

This is available from the Careers and Employability Service:

<https://www.liverpool.ac.uk/intranet/careers/graduatedestinations/>

**iv) Office for Students (OfS) student outcomes data**

The data for each reporting unit is pre-populated in the ASAP Report Template and is taken from the data published in the OfS dashboard:

<https://www.officeforstudents.org.uk/data-and-analysis/student-outcomes-data-dashboard/>

A spreadsheet of all the OfS data for UoL is also available via a link here:
